## Teacher Notes

Most teachers are looking for short, easy to grade test of knowledge that their students might know or have learned this school term. This was my easy way of just checking my own student's knowledge.

**First** print the answer sheet page and cut them to give one to each student. Past them out FACE DOWN and tell students NOT to touch them until told to. Remember tell them that will have only one minute to answer.

**Second** select a question, then read it to the student. Tell them they have 30 seconds to THINK of the answer. After 30 seconds, tell them to turn over their answer sheet and write their answers as quick as possible.

**At the end** of ONE MINUTE tell them to turn over the sheet and pass them up. Anyone not passing their sheet up LOSES, end of story.

Grade them following this grading scale:

A+	Perfect answers, no miss-spellings
A	All right answers
A-	Perfect with one/two/three miss-spellings
B+	Two right answers, no miss-spelling
B	Two right answers
B-	Two right answers with one/two miss-spellings
C	One right answer, no miss spelling
C-	One right answer with one miss-spellings
D	Incorrect answers but all Louisiana answers
U	Incorrect answers

The scale works because is give the students a change to "do well" and it is easy to grade. I always told my student 'If I can make out your answer ' *I will give you credit.*" I WANT them to get the right answer, no matter how they spell it.
